Independent Auditor's Report

Honorable Mayor and
Members of the City Council
City of Washington, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Washington, Georgia, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Washington, Georgia, as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparison of the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information on pages 4 through 14 and 65 through 71, respectively to be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Washington, Georgia's basic financial statements. The combining and individual fund financial statements and schedules and the schedule of projects financed with special purpose local option sales tax are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and the schedule of projects financed with special purpose local option sales tax are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and the schedule of projects financed with special purpose local option sales tax are fairly stated in all material respects in relation to the financial statements as a whole.

We also have previously audited, in accordance with auditing standards generally accepted in the United States, the City of Washington, Georgia's basic financial statements for the year ended December 31, 2019, which are not presented with the accompanying financial statements. In our report dated May 27, 2020, we expressed unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Washington's basic financial statements as a whole. The individual fund financial statements and schedules related to the 2019 financial statements are presented for the purposes of additional analysis and are not a required part of the financial statements.

The individual fund financial statements and schedules related to the 2019 financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the 2019 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2019 individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements from which they have been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 28, 2021, on our consideration of the City of Washington, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Washington, Georgia's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

City of Washington management is proud to present this narrative discussion and analysis of the City of Washington's financial performance, making available an overview of the activities for the year ended December 31, 2020. This report is drafted annually to provide readers of financial statements with information that will help them make timely and meaningful financial decisions or draw conclusions about the City of Washington. As required by the Governmental Accounting Standards Board (GASB) Statement No. 34, this discussion and analysis affords comparisons with the previous fiscal year.

Financial Highlights

- The City of Washington's assets exceeded its liabilities at December 31, 2020 by \$18,939,315 (*net position*). Of this amount, \$1,922,637 is reported as unrestricted net position. This is an increase of \$406,413 from the previous year for unrestricted. Total net position increased by \$681,256 from the previous year due mostly to increases in unrestricted net position.
- As of December 31, 2020, the City of Washington's governmental funds reported combined ending fund balances of \$994,328. Approximately \$578,663 is reported as restricted. Approximately \$65,446 is reported as assigned. Information about the City of Washington's Policy on Fund Balance can be found in Note 2R in the *Notes to the Financial Statements* beginning on page 29.

More detailed information regarding these activities and funds begins on page 15.

Overview of the Financial Statements

This discussion and analysis narrative is intended to serve as an introduction to the City of Washington's basic financial statements. The City of Washington's basic financial statements are composed of three elements: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains required supplementary information in addition to our basic financial statements.

Government-wide Financial Statements (Reporting the City as a whole). The focus of the government-wide financial statements is on the overall financial position and activities of the City of Washington and is designed to provide a broad overview of the City's financial activities in a manner similar to a private business enterprise.

The City's government-wide financial statements include the Statement of Net Position and the Statement of Activities. These two statements report information about the City of Washington using the accrual basis of accounting, which is similar to the accounting used by non-public businesses. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The purpose of the **Statement of Net Position** (pages 15-16) is to report all of the assets held and liabilities owed by the City. The City reports all of its assets when it acquires ownership over the assets and reports all of its liabilities when they are incurred. The difference between the total assets and total liabilities is labeled *net position*. While the purpose of City Government is not to accumulate net position, as this amount increases it can indicate the strength of the City's financial position as a whole. When this amount decreases it can indicate a weakening of the City's financial position.

The **Statement of Activities** (page 17) presents the revenues and expenses of the City. Under the accrual basis of accounting, revenues are recognized when earned and expenses when incurred in this statement. Thus, revenues are reported even when they may not be collected for several weeks after the end of the accounting period and expenses are recorded even though they may not have used cash during the current period. The difference is described as *change in net position*. The Statement of Activities primary focus is on the *net cost* of various activities provided by the City and identifies the extent to which each function of the City draws from general revenues or is self-financing through user fees, special revenues, grants, or other sources.

In the Statement of Net Position and the Statement of Activities, we divide the City of Washington into three types of activities:

- **Governmental activities** – Most of the City's basic services are reported under this category which includes: judicial, public safety, public works, and general administration. Taxes such as real property, sales, insurance premium and intangible finance most of these services.
- **Business-type or Enterprise activities** – The City charges fees to customers to assist in recovering the cost for providing certain services. The City's water and sewer system, electric system, solid waste services, and internet telecommunications system are reported in this category.
- **Discretely Presented Component Unit** – A component unit is a legally separate organization for which the elected officials of the City can be financially accountable. The Downtown Development Authority of Washington, Georgia, although legally separate, functions for all practical purposes as a department of the City of Washington and has been included as an integral part of the government.

The City's government-wide financial statements are presented on pages 15-17.

Fund Financial Statements (Reporting the City's Major Funds).

The focus of fund financial statements is directed at specific activities of the City and its most significant funds, not the City as a whole. A fund is an entity with a self-balancing set of accounts that the City uses to track specific resources and expenditures, either for management purposes or because of legal mandates. In addition to the major funds, individual fund data for the City's non-major funds can be found beginning on page 72. The City's funds are divided into two broad categories: governmental and proprietary. They use different prescribed accounting methodologies.

- **Governmental Funds** – These funds account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on the short-term view of the City’s general government operations and the basic services it provides. Governmental funds are reported using an accounting method called modified accrual, which measures cash and all other financial assets that can readily be converted to cash.

Because the focus of the governmental fund financial statements is narrower than that of the government-wide financial statements and because of the different accounting methods used to prepare them, there are often significant differences between the totals presented in these financial statements. It is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By so doing, readers may better understand the long-term impact of the government’s near-term financing decisions. An analysis of the balance sheet and the statement of revenues, expenditures, and changes in fund balances that reconciles the two statements are provided following each statement.

The City of Washington maintains twelve individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, which is considered a major governmental fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements on pages 72-75 of this report.

The City of Washington adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been included for the General Fund to show the final result of actual revenues and expenditures as compared to the initial projections.

The City’s basic governmental fund financial statements are presented on pages 18-22 of this report.

- **Proprietary Funds** – When the City charges customers for the services it provides, whether to outside customers or internally to departments of the City, these services are generally reported in proprietary funds. The City maintains one type of proprietary funds: Enterprise Funds. These proprietary funds are prepared using the same accrual basis of accounting as the government-wide financial statements.

Enterprise fund statements report the same functions presented in the business-type activities columns of the government-wide financial statements. The City of Washington uses enterprise funds to account for its Water and Sewer, Electric, Solid Waste, and Internet Telecommunications functions. The City’s proprietary fund financial statements are presented on pages 23-27.

Notes to the financial statements.

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 28-64 of this report.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the City's defined benefit pension plan. The required supplementary information can be found on pages 65-71 of this report.

Other Supplementary Information.

Other supplementary information includes combining financial statements for non-major governmental and proprietary funds. These funds are added together by fund type and presented in single columns in the basic financial statements but are not reported individually, as with major funds, on the government-wide financial statements.

This report includes two schedules (pages 19 and 21) which reconcile the amounts reported on the governmental fund financial statements (modified accrual basis of accounting) with the governmental activities reported on the government-wide financial statements (accrual basis of accounting). The following summarizes the impact of transitioning from modified accrual to accrual accounting:

- Capital assets used in governmental activities on the government-wide statements are not reported on fund financial statements.
- Certain tax revenues that are earned, but not available, are reported as revenue on the government-wide statements but as deferred inflows of resources on the fund statements.
- Unless due and payable, long-term liabilities, such as lease obligations, compensated absences, bonds and notes payable, and others only appear as liabilities in the government-wide statements.
- Capital outlay spending results in capital assets on the government-wide statements but is reported as expenditures on the governmental fund financial statements.
- Certain other outflows represent either increases or decreases in liabilities on the government-wide statements but are reported as expenditures on the governmental fund financial statements.

Overview of the City's Financial Position and Operations

The City's overall financial position and operations for this fiscal year is summarized as follows based on the information included in the government-wide financial statements (see pages 15-17):

City of Washington Net Position December 31, 2020 and 2019

	Governmental Activities		Business-Type Activities		Total	
	2020	2019	2020	2019	2020	2019

Unrestricted	<u>(863,511)</u>	<u>(772,968)</u>	<u>2,786,148</u>	<u>2,289,192</u>	<u>1,922,637</u>	<u>1,516,224</u>
Total net position	<u>\$ 6,740,064</u>	<u>\$ 6,587,489</u>	<u>\$ 12,199,251</u>	<u>\$ 11,670,570</u>	<u>\$ 18,939,315</u>	<u>\$ 18,258,059</u>

Net position may serve over time as a useful indicator of a government's financial position. Assets for the City of Washington exceeded liabilities by \$18,939,315 at the close of 2020. Approximately 81% of the City of Washington's net position is reflected in its investment in capital assets (e.g., land, buildings, machinery and equipment, infrastructure), less any related debt outstanding that was needed to construct or acquire them. This has decreased 3% from 84% at December 31, 2019. The City uses capital assets to provide services to citizens. Consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Restricted net position comprises 9% of total net position. This amount represents resources that are subject to external restrictions or enabling legislation on how they may be used. Unrestricted net position makes up the remaining 10%.

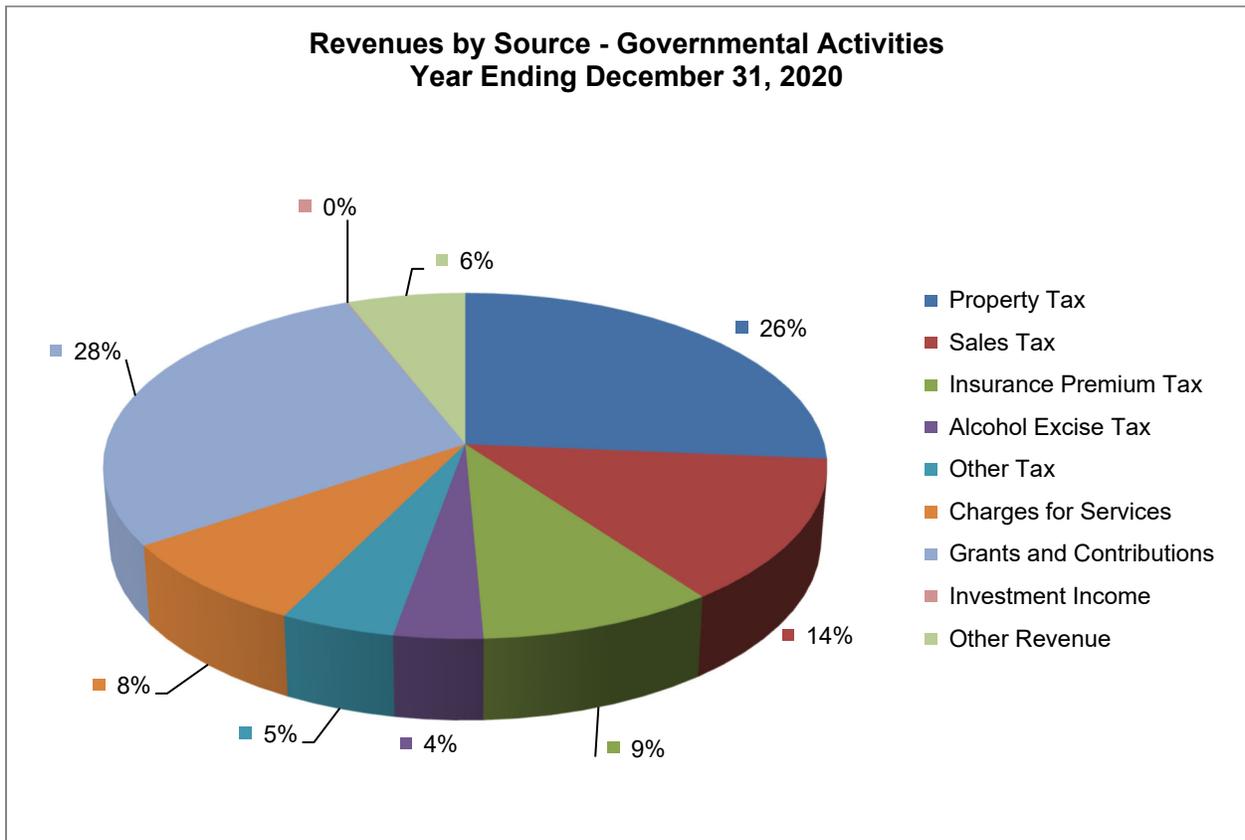

The following condensed financial information was derived from the government-wide Statement of Activities and reflects how the City of Washington's net position changed during the year.

**City of Washington
Changes in Net Position
For Years Ended December 31, 2020 and 2019**

Governmental Activities –

The following chart illustrates revenues of the governmental activities for the fiscal year:

The following chart illustrates the expenses of the governmental activities for the fiscal year:

Business-Type Activities –

Business-type activities increased the City of Washington’s net position by \$528,681, or 3%. This increase is due to a large increase in net position in the Electric Fund that was offset partially by a decrease in net position in the Water Fund and Nonmajor Funds.

Financial Analysis of the City’s Funds

The City of Washington uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The main focus of the City’s governmental funds is to provide information on near-term inflows, outflows, and balances of unrestricted resources. Such information is useful in assessing the City’s financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government’s net resources available for spending at the end of the fiscal year.

- 1) As the City completed this fiscal year, its governmental funds reported a combined ending fund balance of \$994,328. Of this amount, \$317,527 is reported as unassigned.

The General Fund is the chief operating fund of the City. At the end of the current year, fund balance of the General Fund was \$536,230. As a measure of the General Fund’s liquidity, it is useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance at December 31, 2020 is \$317,527, or 59% of total fund balance. Total fund balance represents approximately 12.2% of total General Fund Expenditures. The City ended the year realizing an increase in the overall fund balance in the General Fund by \$356,545 or approximately 198%. The City increased unassigned fund balance in the General Fund by \$391,945.

General Fund Budget Highlights

The original budget for the General Fund was amended by various appropriations approved after the beginning of the fiscal year. Some unbudgeted expenditures occurred which were completely offset by either unbudgeted revenue or by a decrease in budgeted expenditures. There were also some amendments made to transfer revenues and expenses between departments due to government structure changes.

Proprietary Funds. The City of Washington’s proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the City’s four proprietary funds totaled as follows:

▪ Water and Sewer	\$ 309,032
▪ Electric	\$ 2,126,142
▪ Solid Waste	\$ (138,229)
▪ Internet Telecommunications	\$ 489,203

The Water and Sewer Fund decreased net position by \$51,498. The decrease is due to a reduction in sales and an increase in transfers out to other funds. The Electric Fund increased net position by \$640,741. The increase is due to an increase in cash and cash equivalents, an increase in deferred outflows of resources, and a decrease in accounts payable. The Solid Waste Fund decreased net position by \$81,147. The decrease is due to capital asset additions through accounts payable and an increase in deferred inflows of resources. The Internet Telecommunications Fund increased net position by \$20,585. The increase is due to a increase in accounts receivable and increase in accounts payable.

Capital Assets and Debt Administration

Capital Assets. The City of Washington has invested \$23,994,932 in capital assets (net of accumulated depreciation) compared to \$24,543,327 in the previous year. This represents a decrease of about 2%. Approximately 66% of this investment is related to business-type activities and includes infrastructure, land, buildings, and equipment and vehicles. Capital assets held by the City at year-end are summarized as follows:

City of Washington Capital Assets (net of accumulated depreciation) For Years 2020 and 2019

	Governmental Activities		Business-Type Activities		Totals	
	2020	2019	2020	2019	2020	2019
Land	\$ 1,213,235	\$ 714,771	\$ 207,190	\$ 207,190	\$ 1,420,425	\$ 921,961

Major capital asset expenditures during the current fiscal year for governmental activities included the following:

- Completion of Gordon Street School Demolition

Major capital asset expenditures during the current year for business-type activities included the following:

- Lift Station Improvements – Water Sewer department
- Water Line Improvements – Water / Sewer department
- New Meter Reading System – Electric department
- New Trash Bins – Solid Waste department

Additional information on the City of Washington's capital assets can be found in Note 8 on pages 46-47 of this report.

Debt/Capital Leases. On December 31, 2020, the City of Washington had a total debt balance outstanding for governmental activities in the amount of \$1,025,167, as compared to \$1,242,659 the previous year. The City of Washington's outstanding debt for governmental activities has decreased by \$217,492 during the course of the year. On December 31, 2020, the City of Washington had a total debt balance outstanding for business-type activities in the amount of \$7,453,859, as compared to \$7,905,287 the previous year. The City of Washington's outstanding debt for business-type activities has decreased by \$451,428 during the course of the year.

Additional information on the City's long-term debt can be found in Notes 10 and 11 on pages 48-53 of this report.

Economic Condition and Outlook

The City of Washington proved to be a resilient community that bent but did not break under economic hardship. Once known as a manufacturing town, the City experienced several industrial plant closures over the years. The most recent was a large industrial water/sewer/electric customer that closed in 2019, the effects of which were being felt in Q1 of 2020 as COVID-19 was becoming a household name. City leaders acted swiftly to reduce spending and adjust forecasts, while retaining all employees without any furloughs or layoffs.

The City has worked tirelessly to rebrand itself as a “quality of life” community that is ideally suited for telecommuters, small business, and for large industry. There are many positive indicators too. The City experienced some significant gains amid the challenges. One new manufacturing plant (Rekord Structures) opened its doors and now employs over 100 persons. Three other manufacturing companies grew their businesses despite the COVID challenges. Especially noteworthy is emergence of a fledgling data mining company (WAHA) that is experiencing exponential growth and has quickly become a major consumer of the City’s electric utility services.

Washington sits in the heart of Georgia’s timber basket, which saw increased demand for lumber and its secondary forest industry markets such as wood procurement, timber harvest equipment sales and service. The City is working with several prospects in the agribusiness sector that would be water, sewer, and electric consumer as well. Washington has much to offer prospects including Opportunity Zone incentives, fiber optic high speed internet, low cost of living, abundant natural resources, proximity to a larger labor pool within commute distance, and a newly completed 4-lane expressway to I-20. For these reasons, the City continues to actively pursue other companies to invest in our community, to bring more diversity to our market and thus more stability to our economic future.

The City of Washington is actively engaged with the Payroll Development Authority in partnership with the County. The PDA is working with various businesses to fill our industrial park. The City also works with the Urban Redevelopment Authority and the Downtown Development Authority. Both of these subunits of the City are actively engaged in new business development and retaining of our current businesses. For example, the City and URA collaborated on a feasibility study and is pursuing plans to redevelop a 27-acre abandoned public school property in the heart of the community.

The City has continued to make an investment in its downtown to attract new business. The City adopted a food truck ordinance to attract new restaurateurs to the area. The Main Street Department continues offering incentives for businesses locating in downtown Washington. The City also continues to offer existing businesses incentives in the form of façade grants, and most recently a reduction in electric rates for small commercial customers.

The City employs a full-time director to manage the Main Street program and serves as director of its Downtown Development Authority. This person works with businesses to plan and promote events that attract commerce to the downtown area. The City regularly hosts downtown events such as the newly Music & Makers events organized by downtown merchants. Main Street also supports summer concerts and various children activities to get people downtown. Main Street actively recruits small businesses to occupy vacant commercial spaces in the area.

Over the past couple of years, the City of Washington improved its net position while investing in Capital assets. Since the Covid-19 outbreak, the City had seen a mixture of small business closures offset somewhat by an upsurge in industrial business growth. The local housing market shows strong demand with over 96% occupancy in our local market. This is due in part to the low tax rate coupled with the trends toward working remotely due to Covid-19. The City finds itself ideally located for those looking to trade urban life for quaint small-town lifestyle that offers a slower pace of life, lower crime rate, and lower cost of living. The City has kept its property taxes low for several years.

The City continues to absorb the rising costs of electric prices due to State and Federal regulations being mandated on sources of power, specifically coal units. Growth in industrial electric consumption has enabled the City to consume all its MEAG power under contract, and to now become a consumer of excess power from other MEAG cities to meet our growing demands. The City continues to look for ways to decrease costs through efficient operations and to increase the City's tax base with improvements to residential communities and actively pursuing businesses to locate here in Washington. The City recently continues its utilize CHIP grant funds from DCA to build four new homes on City owned property to help low to moderate income families. This grant was in partnership with Hands on Washington. Hands On Washington will spend their portion of the funds in renovating older homes in Washington for low income individuals. Further, the City used CHIP grant funds to purchase two blight house properties and clear the sites for new CHIP house construction.

All of these items were considered in the 2021 budget process:

- The need for efficient operations and innovative ways to cut costs. In May 2021, the City cut approximately \$2.6M from its budget to prevent deficit spending. That move enabled the City to greatly improve its net position and proactively face the hardships that COVID triggered.
- Updating the Service Delivery Strategy agreement between the City & County for joint services
- Combining functions of employees to save money and eliminate duplication of duties
- Enforcing code to deal with dilapidated properties and thereby increase property values.
- Making decisions with citizens' quality of life and affordability at the forefront of our decision-making process
- Retaining our low ISO rating for fire and loss of life & property by making improvements to the Washington Fire Department
- Continuing Infrastructure Improvements
- Rising cost of healthcare and other insurance benefits
- Recruiting and Retaining a qualified workforce by increasing the base salaries across the board and offering more training to employees

Contacting the City

This financial report is designed to provide City citizens, taxpayers, customers, and creditors with a general overview of the City of Washington's finances and to demonstrate the City's high level of accountability for the revenue it receives and the services it provides. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

RECONCILIATION OF THE BALANCE SHEET OF
GOVERNMENTAL FUNDS TO THE
STATEMENT OF NET POSITION
December 31, 2020

Total fund balances - total governmental funds \$ 994,328

Amounts reported for governmental activities in the statement of net position are different because:

Some assets are not financial resources and therefore are not reported in the funds.

These are:

Capital assets, net of accumulated depreciation	8,144,602
---	-----------

Revenues in the statement of activities that do not provide current financial resources are reported as deferred inflows of resources in the funds.

These are:

Property taxes	92,994
----------------	--------

Deferred outflows and inflows of resources related to pensions are applicable to future periods and, therefore, are not reported in the funds. These are:

Deferred outflows of resources:

Pension contributions subsequent to measurement date	\$ 134,784	
Pension investment return differences	558,906	
Pension experience differences	61,623	
Pension allocation changes	31,113	786,426

Deferred inflows of resources:

Pension assumption changes	(88,838)
----------------------------	----------

Some liabilities are not due and payable in the current period and therefore are not reported in the funds. These are:

Compensated absences	\$ (63,652)	
Interest payable	(6,614)	
Net pension liability	(2,094,015)	
Capital leases payable	(17,001)	
Installment sale agreement payable	(878,229)	
Notes payable	(129,937)	(3,189,448)

Net position of governmental activities	\$ 6,740,064

**CITY OF WASHINGTON, GEORGIA
RECONCILIATION OF THE STATEMENT OF
REVENUES, EXPENDITURES, AND CHANGES IN
FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For the year ended December 31, 2020**

Net change in fund balances - total governmental funds \$ 606,158

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlays	\$ 170,773	
Depreciation	<u>(349,255)</u>	(178,482)

Contributions of capital assets from business-type activities increase net position in the statement of activities, but do not appear in the governmental funds because they are not financial resources.

Cost of assets contributed	\$ 13,035	
Related accumulated depreciation	<u>(13,035)</u>	0

The proceeds of debt issuance, net of premiums, discounts and issuance costs provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. In addition, interest on long-term debt is not recognized in the governmental funds until due, but is recognized in the statement of activities as it accrues.

Net change in interest payable	\$ 1,328	
Debt principal payments	<u>217,492</u>	218,820

Governmental funds report pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.

Pension contributions	\$ 179,712	
Cost of benefits earned net of employee contributions	<u>(706,497)</u>	(526,785)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Unavailable revenues		17,856
----------------------	--	--------

Some expenses reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in governmental funds.

Compensated absences		<u>15,008</u>
----------------------	--	---------------

Change in net position of governmental activities		<u><u>\$ 152,575</u></u>
---	--	--------------------------

Acquisition of capital assets through retainage payable totaled \$7,890.

The net increase (decrease) in the fair value of investments totaled \$10,282.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

1. Description of Government Unit

Incorporated in 1780, under the laws of the State of Georgia, the City of Washington is governed by a seven member Mayor/Council form of government. The Mayor is elected to a four-year term, and the Council members are elected to staggered four-year terms. The Mayor serves as the Chief Executive Officer and the other six Council members serve on a part-time basis. The Mayor is assisted by the City Administrator to handle the daily operations of the City.

2. Summary of Significant Accounting Policies

A. Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

B. Reporting Entity

The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

B. Reporting Entity, continued

Downtown Development Authority of Washington, Georgia

The Downtown Development Authority of Washington, Georgia was established as a legally separate entity, which operates pursuant to the Official Code of Georgia Annotated. The Authority consists of seven members, who are appointed by the Mayor and Council. The Downtown Development Authority provides for the vitalization of the downtown area of the City of Washington. In many respects, the Authority functions similar to a City department through regular participation in department director meetings, accounting, payroll, etc. The Authority is included in the reporting entity due to the nature and significance of its relationship with the City of Washington.

The Downtown Development Authority of Washington, Georgia is reported in a separate column to emphasize that it is legally separate from the City. Separate financial statements of the component unit can be obtained from the Downtown Development Authority, P.O. Box 9, Washington, Georgia 30673.

C. Basis of Presentation – Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds and proprietary funds.

As mentioned above, the City has one discretely presented component unit. While the Downtown Development Authority is not considered to be a major component unit, it is nevertheless shown in a separate column in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

D. Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the City's funds. Separate statements for each fund category – governmental and proprietary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

The City reports the following major governmental funds:

General Fund - This is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The City reports the following major enterprise funds:

Water and Sewer Enterprise Fund - This fund accounts for the operation and maintenance of the City's water and sewer services.

Electric Enterprise Fund - This fund accounts for user fees and expenses for the electric services provided to the citizens of the City.

Additionally, the City reports the following fund types:

Governmental Fund Types

Special Revenue Funds - These funds are used to account for the proceeds of specific revenue sources that are legally or donor restricted to expenditures for specific purposes.

Capital Projects Funds - These funds are used to account for financial resources to be used for the acquisition or construction of capital facilities (other than those financed by the proprietary funds).

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

D. Basis of Presentation – Fund Financial Statements, continued

Governmental Fund Types, continued

Permanent Funds - These funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting City's programs.

Proprietary Fund Types

Enterprise Funds - These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The funds are self-supporting in nature where the costs, including depreciation, of providing goods or services to the general public on a continuing basis are financed or recovered primarily through user charges.

Component Units

The Downtown Development Authority of Washington, Georgia's operations are accounted for using a current financial resources measurement focus and using the modified accrual basis of accounting. Under this method, revenues are recognized when susceptible to accrual.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

D. Basis of Presentation – Fund Financial Statements, continued

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

E. Measurement Focus and Basis of Accounting, continued

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end).

Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

F. Revenues and Expenditures/Expenses

Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

F. Revenues and Expenditures/Expenses, continued

Certain indirect costs have been included as part of program expenses reported for the various functional activities.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's Enterprise Funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

G. Budgets and Budgetary Accounting

The City follows these procedures in establishing the budgetary data for the funds reflected in the financial statements.

1. In November, a proposed operating budget for the fiscal year commencing January 1 is submitted to the City Council. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain taxpayer comments.
3. Prior to January 1, the budget is legally enacted through passage of an ordinance.
4. All budget revisions or changes must be approved as required by Georgia law and administrative policy. Transfer of budgetary amounts between line items within a fund can be done with the approval of the City Administrator. Transfer of amounts between each department of each fund must be approved by the City Council. This is the legal level of budgetary control.
5. The funds obtained from any source may be used for any appropriations named in said budget, except funds specifically restricted by the City ordinance or State law.
6. The City does not employ the use of encumbrance accounting.
7. Unexpended appropriations lapse at the end of the year.
8. At the end of the fiscal year, all amendments to the budget are approved through passage of an ordinance.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

H. Cash and Investments

Cash and cash equivalents, as reported in the statement of cash flows, includes amounts in demand deposits, amounts with fiscal agents and investments with an original maturity at three months or less. Investments are reported at fair value with accrued interest shown under a separate caption on the balance sheet. Reinvested interest on certain debt service and capital project investments is included in the investment accounts.

The City measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Quoted prices for identical investments in active markets;
- Level 2: Observable inputs other than quoted market prices; and,
- Level 3: Unobservable inputs.

The City reports investments using net asset value (NAV) when NAV is calculated in a manner consistent with fair value measurement guidelines, fair value is not readily determinable, and it is not probable for the investment to be sold at an amount other than NAV.

I. Property Taxes

The City bills and collects its own property taxes. City property tax revenues are recognized when levied to the extent that they result in current receivables. Assessed values are an approximation of market value. At the government-wide level, property taxes are recognized as revenue when they are levied. The governmental fund statements recognize property taxes as revenue as soon as they are considered to be both measureable and available.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

J. Intergovernmental Receivables

Receivables for state and federal grants are recorded as revenue for the period of the allocation or as earned based on expenditures made for which reimbursement is due.

K. Inventories

The costs of governmental fund-type inventories are recorded as expenditures when purchased. Inventories of the proprietary funds are valued at cost, which approximates market, using the first-in, first-out method.

L. Prepaid Items

Certain payments made to vendors that will benefit periods beyond the end of the current year are recorded as prepaid items. Prepaid items in the governmental funds are accounted for using the consumption method.

M. Capital Assets

Capital assets are defined by the City as assets with an estimated useful life in excess of two years and with an initial, individual cost of more than \$15,000 for streets, buildings, and grounds and \$5,000 for all other capital assets. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the lives of the assets are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

M. Capital Assets, continued

Historical treasures are collections or significant individual items that are owned by the City and held for public exhibition, education or research as part of a public service rather than for financial gain. Such assets are recorded at historical cost if acquired, or they are recorded at acquisition value if donated. The City considers these historical treasures to be inexhaustible, in that their economic benefit or service potential is used up so slowly that the estimated useful lives are extraordinarily long. Therefore, they are not depreciated.

Depreciation is computed using the straight-line method over the estimated useful lives of the respective assets ranging as follows:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Infrastructure	50
Building and Improvements	12-40
Vehicles	5-20
Machinery & Equipment	7-15
Electric Plant Systems	30
Software	5

Pursuant to GASB Statement No. 34, Phase 3 governments are not required to report major general infrastructure assets retroactively. General infrastructure assets acquired prior to January 1, 2004 are not reported in the basic financial statements. General infrastructure assets include all roads, bridges, and other infrastructure assets acquired subsequent to January 1, 2004.

N. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City reports deferred outflows of resources related to its defined benefit pension plans.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

N. Deferred Outflows/Inflows of Resources, continued

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable property taxes revenues. The City also reports deferred inflows of resources related to its defined benefit pension plans. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

O. Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

P. Fund Balance Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

Q. Restricted Assets and Restricted Net Position

Restricted assets represent certain resources restricted by funding source or required to be set aside for the repayment of debt. They are maintained in a separate bank account and their use is limited.

Restricted net position is equal to the excess of the restricted assets funded from operations over the liabilities to be paid with restricted assets which are due in one year or less. Restricted assets exclude bond proceeds for calculation of restricted net position.

R. Fund Balances

The City of Washington implemented GASB No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, in 2012. In the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

Committed – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the City Council, the City of Washington's highest level of decision making authority, which include the language "committed for the purpose of". Commitments may be modified or rescinded only through adoption of a subsequent resolution, which shall refer to the original resolution by its number, title, and date of original adoption. A resolution committing amounts must be adopted prior to the end of the fiscal year; however, the amount to be committed may be determined within 90 days of fiscal year-end.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

R. Fund Balances – Governmental Funds, continued

Assigned – includes amounts that the City intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the City’s adopted policy, amounts may be assigned by the City Administrator, under the authorization of the City Council, through a written memorandum. Amounts appropriated to eliminate a projected deficit in the subsequent fiscal year’s budget shall constitute assignments and are documented by adoption of the City’s annual operating budget. Equity amounts reported in special revenue funds, capital project funds, debt service funds, or permanent funds not otherwise classified as nonspendable, restricted, or committed shall constitute assignments of fund balance.

Unassigned – includes amounts that do not fall into one of the above four categories. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund is the only fund that should report positive amounts this category of fund balance.

S. Pensions

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City of Washington Employees’ Pension Plan (the Plan) and additions to/deductions from the Plan’s fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

T. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts not withheld from the actual debt proceeds received, are reported as debt service expenditures.

U. Compensation for Future Absences

It is the City's policy to permit employees to accumulate up to 160 hours of earned but unused vacation benefits which will be paid to the employees upon separation from City service. Accumulated unpaid vacation pay amounts are accrued when incurred by the City in the government-wide and proprietary fund financial statements. The liability of the proprietary funds is recorded as an expense and a liability of those funds as the benefits accrue to the employees. In governmental fund types, a liability is recorded only if the benefit has matured and is expected to be liquidated with expendable available financial resources.

V. Capital Contributions

Federal, state and local government assistance in the form of grants that are permanent in nature and restricted for the construction or acquisition of specific property and equipment is recorded as an asset and as non-operating revenue.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

3. Deposit and Investment Risk

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that, in the event of a financial institution failure, the City's deposits may not be returned. The City's policies require that all deposits be federally insured or fully collateralized.

Interest Rate Risk

The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

State of Georgia law limits investments to include certificates of deposit, repurchase agreements, direct and agency obligations of the United States, obligations of any corporation of the United States government, obligations of the State of Georgia or other states, obligations of other political subdivisions of the State of Georgia, and pooled investment programs of the State of Georgia. The City does not have a formal investment policy that would further limit its investment choices. Investments are reported at fair value.

Concentration of Credit Risk

The City does not have a formal policy on the amount the City may invest in any one issuer.

Foreign Currency Risk

The City has no investments denominated in a foreign currency.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

3. Deposit and Investment Risk (continued)

The City is a participant in the Municipal Electric Authority of Georgia (MEAG). The MEAG board approves an annual system budget from which MEAG bills its participants. At the end of the year, adjustments are made by MEAG to each participant's billings to agree with actual cost. Whenever MEAG recovers funds from the City in excess of its actual costs to serve the City, the City may elect to have their funds deposited in MEAG's Voluntary Flexible Operating Account or Generation Trust Account fund in lieu of receiving a refund. The voluntary stabilization fund is used to reduce future costs of the City at its discretion while also earning interest. The City is authorized to direct MEAG to retain or use the discretionary funds. The generation trust account is used to offset the City's share of future MEAG generation projects.

The Municipal Competitive Trust accounts are held in the Intermediate, Intermediate Extended Maturity, and Short-term Portfolios; these portfolios are not rated. At the end of the current year, the average weighted maturity of the Intermediate, Intermediate Extended Maturity, and Short-term Portfolios were 17.50, 36.42, and 1.94 months, respectively. At the end of the current year, the City's balance in the Voluntary Flexible Operating Account and the Generation Trust Account was \$538,532 and \$1,112,382, respectively.

At the end of the current year, the City had the following investments:

Investment by fair value level	Level 1	Level 2	Level 3	Total
Major Funds				
General Fund				
Certificates of deposit	\$ 3,290	\$ 0	\$ 0	\$ 3,290
Electric Fund				
MEAG Competitive Trust	0	1,650,914	0	1,650,914
Nonmajor Funds				
Governmental				
Certificates of deposit	69,246	0	0	69,246
Total	\$ 72,536	\$ 1,650,914	\$ 0	\$ 1,723,450

Certificates of deposit are valued at cost.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

4. Accounts Receivable

Net accounts receivable at the end of the current year consist of the following:

Major Funds		
General Fund	\$ 83,585	
Less: Allowance for Uncollectibles	<u>(50,698)</u>	\$ 32,887
 Enterprise Funds		
Water and Sewer Fund	596,527	
Less: Allowance for Uncollectibles	<u>(180,525)</u>	416,002
Electric Fund	1,907,731	
Less: Allowance for Uncollectibles	<u>(815,035)</u>	1,092,696
 Nonmajor Funds		
Enterprise Funds		
Solid Waste Fund	117,292	
Less: Allowance for Uncollectibles	<u>(42,471)</u>	74,821
Internet Telecommunications Fund	35,522	
Less: Allowance for Uncollectibles	<u>(458)</u>	<u>35,064</u>
 Total primary government		 <u><u>\$ 1,651,470</u></u>

5. Intergovernmental Receivables

Intergovernmental receivables at the end of the current year consist of the following:

Major Funds	
General Fund	\$ 31,284
Electric Fund	308,855
 Nonmajor Funds	
2017 SPLOST Fund	49,941
CDBG/CHIP Grant Fund	<u>101,487</u>
 Total primary government	 <u><u>\$ 491,567</u></u>

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

6. Property Taxes

Property tax rates are set by the City Council each year and are limited by statutory or constitutional provision. Property values are assessed as of January 1st each year. Property taxes for the 2020 tax digest year, based upon the assessments as of January 1, 2020, were levied on October 12, 2020, billed on November 23, 2020, and due on January 26, 2021. Taxes receivable at the end of the current year is made up of property tax in the amount of \$307,452, net of an allowance placed on accounts deemed uncollectible.

7. Interfund Receivables, Payables, and Transfers

At the end of the current year, interfund receivables and payables consisted of \$11,144 due from the General Fund to the Electric Enterprise Fund, \$6,242 due from the Electric Enterprise Fund to the E-911 Special Revenue Fund, and \$10,093 due from the Water and Sewer Enterprise Fund to the Electric Enterprise Fund as a result of the timing of reimbursements.

A summary of interfund transfers is as follows:

<u>Transfer out fund</u>	<u>Transfer in fund</u>	<u>Amount</u>
General	Nonmajor Governmental	\$ 125,979
Water and Sewer	Electric	187,385
Electric	General	1,628,333
	Nonmajor Governmental	6,242
	Nonmajor Enterprise	9,579
Nonmajor Governmental	Water and Sewer	249,462
Nonmajor Enterprise	Electric	<u>119,476</u>
Total		<u><u>\$ 2,326,456</u></u>

Interfund transfers were used to 1) move revenues from the fund that statute or budget requires collecting them to the fund that statute or budget requires to expend them, and 2) use unrestricted revenues collected to finance various programs accounted for in other funds in accordance with budgetary authorizations. Transfers are eliminated in the government-wide financial statements if the interfund transfer is within the governmental fund group or business-type fund group.

Prior accumulated depreciation on assets through contribution from business type activities	13,035
Additions to accumulated depreciation	\$ 362,290

9. Notes Receivable

The City of Washington entered into owner-financed lending agreements with the Georgia Department of Community Affairs for the purchase of real property in the total amount of \$44,000, with annual principal payments of \$8,800 and interest at 0%. The term of the notes are 5 years. The total remaining balance of the notes receivable at the end of the current year is \$15,200.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

10. Capital Lease Agreements

The City has entered into lease-purchase agreements to finance the purchases of equipment. The terms of the agreements meet the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, which defines a capital lease generally as one which transfers benefits and risk of ownership to the lessee. The balances of the leases at the end of the current year are \$17,001 and \$238,086 for governmental activities and business-type activities, respectively. The total of assets leased under capital leases is made up of vehicles in the amount of \$187,439 and \$889,799 for governmental activities and business-type activities, respectively. The vehicles have a five to fifteen year estimated useful life. Included in depreciation expense for the current year was \$18,743 and \$93,566 for the governmental activities and business-type activities, respectively.

10. Capital Lease Agreements (continued)

The following is a schedule of the future minimum lease payments together with the present value of the net minimum lease payments and reflects the interest rate amendments as of the end of the current year:

Year Ending December 31,	Governmental Activities	Business-type Activities
2021	\$ 6,205	\$ 91,504
2022	6,205	91,504
2023	6,205	63,611
2024	<u>0</u>	<u>11,345</u>
Total minimum lease payments	18,615	257,964
Less amounts representing interest	<u>(1,614)</u>	<u>(19,878)</u>
Present value of minimum lease payments	<u>\$ 17,001</u>	<u>\$ 238,086</u>

The City's lease agreements, other than such agreements described above, are relatively minor commitments (generally for office machines) and are in compliance with state law.

11. Long-Term Liabilities

Governmental Activities

Installment Sale Agreement

During 2018, the City entered into an Installment Sale Agreement with BB&T in the amount of \$975,000 for the purpose of constructing a new fire station. The installment sale agreement bears interest at 4.05%. The balance of the installment sale agreement was \$878,229 at the end of the current year. The installment sale agreement calls for 57 quarterly payments of \$22,824 beginning January 30, 2019 and matures January 30, 2033. This note is collateralized by a security interest in the purchased property. Upon an event of default, all outstanding principal and accrued interest may be declared immediately due and payable, and the property may be repossessed by the lender.

11. Long-Term Liabilities (continued)

Business-Type Activities

Notes from Direct Borrowings

During 2003, the City entered into a direct borrowing agreement with Georgia Environmental Facilities Authority in the original amount of \$789,731, bearing interest at 3.94%. The balance of the note was \$234,990 at the end of the current year. The note calls for quarterly payments of principal and interest of \$14,313 and matures October 2024. The purpose of the note was for construction of sewer rehabilitation. Upon an event of default, all outstanding principal and accrued interest may be declared immediately due and payable. Note payments and performance obligations are secured by revenues, fees and charges collected by the City.

During 2004, the City entered into a direct borrowing agreement with Georgia Environmental Facilities Authority in the original amount of \$1,599,998, bearing interest at 4.06%. The balance of the note was \$602,161 at the end of the current year. The note calls for monthly payments of principal and interest of \$9,746 and matures February 1, 2027. The purpose of the note was to finance improvements to the Water and Sewer system. Upon an event of default, all outstanding principal and accrued interest may be declared immediately due and payable. Note payments and performance obligations are secured by revenues, fees and charges collected by the City.

During 2010, the City entered into a direct borrowing agreement with Georgia Environmental Facilities Authority in the original amount of \$7,446,275, bearing zero interest. The balance of the note was \$6,193,893 at the end of the current year. The note calls for monthly payments of \$37,539 beginning January 31, 2014 and matures December 31, 2034. The purpose of the note was to finance improvements to the Water and Sewer system. Upon an event of default, all outstanding principal and accrued interest may be declared immediately due and payable. Note payments and performance obligations are secured by revenues, fees and charges collected by the City.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS

11. Long-Term Liabilities (continued)

Business-Type Activities (continued)

Notes from Direct Borrowings (continued)

During 2017, the City entered into a direct borrowing agreement with Georgia Environmental Facilities Authority in the original amount of \$204,703, bearing interest at 1.90%. The balance of the note was \$184,729 at the end of the current year. The note calls for monthly payments of \$1,308 beginning November 1, 2018 and matures October 1, 2033. The purpose of the note was to finance improvements to the Water and Sewer system. Upon an event of default, all outstanding principal and accrued interest may be declared immediately due and payable. Note payments and performance obligations are secured by revenues, fees and charges collected by the City.

In response to the COVID-19 pandemic, GEFA allowed the City to defer all principal and interest payments on all outstanding GEFA notes for six months beginning on July 1, 2020 through December 31, 2020 with payments resuming January 1, 2021.

Annual debt service requirements for notes from direct borrowings are as follows:

Year Ending December 31,	Principal	Interest	Total
2021	\$ 605,719	\$ 34,648	\$ 640,367

13. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the City purchases commercial insurance.

For the last three years, settled claims have not exceeded commercial insurance coverage, nor has there been any reduction in insurance.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

13. Risk Management (continued)

In January 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a “Public Health Emergency of International Concern,” which continues to spread throughout the world and has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the coronavirus outbreak. Nevertheless, the outbreak presents uncertainty and risk with respect to the City, its performance, and its financial results.

14. Net Investment in Capital Assets

The net investment in capital assets reported on the government-wide statement of net position is calculated as follows as of the end of the current year:

	Governmental Activities	Business-Type Activities
Cost of capital assets	\$ 14,414,807	\$ 29,688,475
Accumulated depreciation	(6,270,205)	(13,838,145)
Book value	8,144,602	15,850,330
Capital-related accounts payable	(94,523)	(87,860)

Notes payable	(129,937)	(7,215,773)
Net investment in capital assets	<u>\$ 7,024,912</u>	<u>\$ 8,300,721</u>

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

15. Pension Plans

Defined Benefit Pension Plan

Plan Description. The City, as authorized by the City Council, has established a defined benefit pension plan (The City of Washington Retirement Plan) covering all full-time employees. The City's pension plan is affiliated with the Georgia Municipal Employee Benefit System (GMEBS), an agent multiple-employer pension plan administered by the Georgia Municipal Association. Participants are not allowed to contribute to the Plan. The City does not own any securities on its own. Investment income from the securities is allocated on a pro rata basis. The Georgia Municipal Association issues a publicly available financial report that includes financial statements and required supplementary information for GMEBS. That report may be obtained by writing to Georgia Municipal Association, Risk Management and Employee Benefit Services, 201 Pryor Street, NW, Atlanta, Georgia 30303 or by calling (404) 688-0472.

At July 1, 2020, the date of the most recent actuarial valuation, there were 137 participants consisting of the following:

Retirees and beneficiaries currently receiving benefits	73
Terminated vested participants entitled to but not receiving benefits	22
Active participants	<u>42</u>
Total number of participants	<u><u>137</u></u>

Benefits Provided. As provided by state law, benefit provisions for participants in GMEBS are established by the respective employers. As authorized by City Council, the plan provides pension benefits and death and disability benefits for plan members and beneficiaries. All eligible employees and elected officials are eligible to participate immediately at the commencement of employment. Benefits vest after ten years of service for employees and immediately for elected officials. The benefit formula is 1.00%-1.75% for employees and 1.25%-2.00% for each year of credited service. An employee may elect early retirement at age 55 provided they have a minimum of 10 years total credited service to receive full benefits, otherwise early retirement may be elected after only 10 years of service for reduced benefits. Elected officials are entitled to \$16 for each year of service after reaching normal retirement age.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

15. Pension Plans (continued)

Defined Benefit Pension Plan, continued

Contributions. Employees make no contributions to the plan. The City is required to contribute the remaining amounts necessary to fund the plan in compliance with the minimum funding standards of the Public Retirement Systems Standards Law. This funding policy, as specified by ordinance, has been the same since the inception of the plan. The City's actuarially determined contribution rate for the current year was \$261,583, or 17.30% of covered payroll. The Governmental Activities net pension liability is liquidated by the General Fund.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions. At the end of the current year, the City reported a net pension liability of \$3,047,975. The net pension liability was measured as of March 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020. During the current year, the City recognized pension expense of \$1,018,183.

At the end of the current year, the City reported deferred outflows of resources and deferred inflows of resources related to the plan from the following sources:

	<u>Outflows of Resources</u>	<u>Inflows of Resources</u>
Differences between expected and actual experience	\$ 89,697	\$ 0
Changes of assumptions	16,629	(137,415)
Net difference between projected and actual earnings on pension plan investments	813,524	0
City contributions subsequent to the measurement date	196,187	0
Changes of allocations	31,113	(39,635)
Totals	<u>\$ 1,147,150</u>	<u>\$ (177,050)</u>

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

15. Pension Plans (continued)

Defined Benefit Pension Plan, continued

The \$196,187 of deferred outflows of resources resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2021. Other amounts reported as deferred outflows and deferred inflows of resources will be recognized in pension expense (benefit) as follows:

Year Ending December 31,	
2021	\$ 134,605
2022	167,178
2023	264,319
2024	<u>207,811</u>
Totals	<u>\$ 773,913</u>

Actuarial Assumptions. The total pension liability in the July 1, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Projected salary increases	2.25% plus service based merit increases
Cost of living adjustments	2.00%
Net investment rate of return	7.375%

Healthy mortality rates were based on the sex-distinct Pri-2012 head-count weighted Healthy Retiree Mortality Table with rates multiplied by 1.25. Disabled mortality rates were based on the sex-distinct Pri-2012 head-count weighted Disabled Retiree Mortality Table with rates multiplied by 1.25.

The methods and assumptions used in the July 1, 2020 valuation were based on the results of an actuarial experience study for the period of January 1, 2015 through June 30, 2019.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

15. Pension Plans (continued)

Defined Benefit Pension Plan, continued

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The difference between the resulting rate and the rate on the ongoing basis is a margin for adverse deviation.

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation at the end of the current year are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	45%	6.41%
International equity	20%	6.96%
Domestic Fixed Income	20%	1.96%
Real estate	10%	4.76%
Global Fixed Income	5%	3.06%
Total	<u>100%</u>	

Discount Rate. The discount rate used to measure the total pension liability was 7.375 percent. The projection of cash flows used to determine the discount rate assumed that contributions from employer will be made at contractually required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

15. Pension Plans (continued)

Defined Benefit Pension Plan, continued

Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the separately issued Georgia Municipal Employees Benefit System financial report. A one-time early Retirement Incentive Program (ERIP) was offered to employees of the City who met the Rule of 80 between January 2, 2020 and February 17, 2020. There were three participants who retired under the ERIP during 2020.

Other Plans

In addition to the plan above, various City employees are also covered under the Peace Officers' Annuity and Benefit Fund of Georgia and the Georgia Firefighters' Pension Fund. Further information regarding these plans can be obtained from the plans' annual reports. These plans are immaterial to the financial statements.

16. Defined Contribution Plan

The City participates in a deferred compensation plan, administered by Georgia Municipal Employee Benefit System (GMEBS), for employees under Internal Revenue Code section 457. The plan allows any full time employees to voluntarily defer receipt of their gross compensation, not to exceed the maximum annual contribution established by the Internal Revenue Service. The City contributes 3% of the employees salary and matches up to an additional 2%. The City's match is deposited into the 401(a). All amounts of compensation under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are solely the property and rights of the participants in the deferred compensation plan.

Additionally, the City provides a single employer 401(a) defined contribution plan established and administered by the City for all full time employees. At the end of the current year, there were 21 plan members. Employees are not required to contribute to the Plan. Employees are eligible after one month of employment and are fully vested after five years. Plan provisions and contribution requirements are established and may be amended by resolution of the City Council. Separate financial statements are not issued for the Plan. For the current year, the City's contributions to the 401(a) Plan were \$36,602 and the employees contributed \$17,041 to the 457 Plan.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

17. Joint Ventures

Under Georgia law, the City, in conjunction with other cities and counties in the Central Savannah River Area, is a member of the CSRA Regional Commission (CSRARC) and is required to pay annual dues thereto. Membership in an RC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34, which provides for the organizational structure of the RCs in Georgia. The RC board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of an RC. A copy of the CSRARC financial statements can be obtained from the Central Savannah River Area Regional Commission, 3023 Riverwatch Parkway, Suite A, Augusta, Georgia 30907.

The Washington-Wilkes Payroll Development Authority is a governmental organization chartered by the State of Georgia. It is formed for the purpose of promoting business development in Wilkes County, Georgia and the City of Washington, Georgia. The Authority is reported as a discretely presented component unit of Wilkes County, Georgia. The Authority has a five member board consisting of the Wilkes County Chairman, the City of Washington Mayor, the President of the Chamber of Commerce, one appointee by the County Chairman and one appointee by the City Mayor. The member governments are contingently liable for the debts of the Authority. At the end of the current year, the outstanding debt of the Authority was approximately \$45,976. The Authority was current on all debts as of the end of the current year. The City has a contingency liability of \$45,976 as of the end of the current year. A copy of the Authority financial statements can be obtained from the Washington-Wilkes Payroll Development Authority, 23 Court Street, Washington, Georgia 30673.

18. Joint Ventures With Equity Interest

The City and other members of MEAG's telecommunication project created Georgia Public Web (a Georgia not for profit corporation) to provide internet and telecommunication services to customers in Georgia. On August 1, 2000, the City signed a 50 year commitment to contribute, on a monthly basis, a proportionate share of the difference between GPW's budgeted costs and revenues. The City's proportionate share is (.42)%. For the current year, the City's cost was \$16,860 in services obtained from GPW and the City's share of profits was \$11,374. A copy of the Georgia Public Web financial statements can be obtained from Georgia Public Web, 1470 Riveredge Parkway, Atlanta, Georgia 30328.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

19. Related Organizations

On August 21, 1951, the City of Washington (the "City") entered into a cooperative agreement with the Housing Authority of the City of Washington, Georgia (the "Housing Authority"). Under the terms of this agreement, the Housing Authority agrees to endeavor to secure a contract or contracts with the Public Housing Authority (the "PHA") for loans and annual contributions and agrees to endeavor to develop and administer one or more projects. The obligations of the parties apply only to projects aggregating not more than 250 units of low-rent housing located within the corporate limits of the City of Washington. Under the constitution and statutes of the State of Georgia, all projects are exempt from all real and personal property taxes levied or imposed by any taxing body. The City agrees that it will not levy or impose real or personal property taxes or special assessments upon such projects or upon the Housing Authority with respect thereto as long as (1) the projects are owned, or (2) a contract exists between the Housing Authority and the PHA, or (3) bonds issued in connection with the project are outstanding

During such period, the Housing Authority shall make "Payments in Lieu of Taxes" in lieu of such taxes and special assessments and in payment for the public services and facilities furnished from time to time without other cost or charge for or with respect to such project. The Payment in Lieu of Taxes shall be an amount equal to either ten percent (10%) of the aggregate during such fiscal year, or the amount permitted to be paid by applicable state law. For the current year, payment in lieu of taxes paid to the City was \$5,299.

20. Commitments and Contingencies

Commitments

The City has entered into Power Sales Contracts with the Municipal Electric Authority of Georgia (MEAG). The contracts require the City to purchase from MEAG all of the City's bulk power supply, other than power supplied by Federally-owned generation projects. MEAG is authorized to establish rates and charges so as to produce revenues sufficient to cover its costs. The City's payment obligations are general obligations to the payment of which the City's full faith and credit and taxing powers are pledged. The City purchased bulk power totaling \$7,059,377 from MEAG during the current year. The City's future minimum payment obligations to the Authority will be based on the Authority's costs and the City's yearly demand for bulk power supply. At the end of the current year, the outstanding debt of MEAG was approximately \$7.58 billion. The City of Washington's guarantee varies by individual MEAG project and totals \$62,282,220.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2020

20. Commitments and Contingencies (continued)

Commitments, continued

The City has adopted the provisions of a Municipal Competitive Trust agreement between the City and MEAG. MEAG established the Trust for the mutual benefit of MEAG and its wholesale customers who elect to become participants. The Trust was created to provide a means to mitigate the expected differential between “after deregulation” market rates for power and the associated costs of generating that power. The Trust created four types of accounts that are held by MEAG in the name of the City. The flexible operating trust account includes funds that are available to the City for operating costs and rate stabilization. As of the end of the current year, the balance in this account was \$538,532. This amount is included in unrestricted investments in the Electric Fund. The generation trust account is used to offset the City’s share of future MEAG generation projects. As of the end of the current year, the balance in this account was \$1,112,382. This amount is included in restricted investments in the Electric Fund.

Contingencies

The City receives grant funds, principally from the U.S. Government for various programs. Expenditures from these grants are subject to audit and the City is contingently liable to refund amounts received in excess of allowable expenditures.

Based on the advice of the City attorney, there are no measurable, material claims outstanding against the City at the end of the current year.

Approximately 24% of electric charges are generated from one customer.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
December 31, 2020

1. Valuation Date

The actuarially determined contribution rate was determined as of July 1, 2020, with an interest adjustment to the fiscal year. Contributions in relation to this actuarially determined contribution rate will be reported for the year ending December 31, 2021.

2. Methods and Assumptions Used to Determine Contribution Rates

Actuarial cost method = Projected unit credit

Amortization method = Closed level dollar for remaining unfunded liability

Remaining amortization period = Remaining amortization period varies for the bases, with a net effective amortization period of 11 years

Asset valuation method = Sum of actuarial value at beginning of year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amount that the value exceeds or is less than the market value at end of year. The actuarial value is adjusted, if necessary, to be within 20% of market value.

Net investment rate of return = 7.375%

Projected salary increases = 2.25% plus service based merit increases

Cost of living adjustments = 2.00%

Retirement age for inactive vested participants = 65

Mortality = Healthy mortality rates were based on the sex-distinct Pri-2012 head-count weighted Healthy Retiree Mortality Table with rates multiplied by 1.25. Disabled mortality rates were based on the sex-distinct Pri-2012 head-count weighted Disabled Retiree Mortality Table with rates multiplied by 1.25.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
December 31, 2020

3. Changes in Benefits

Amounts reported for fiscal years ending in 2020 and later reflect that a one-time Early Retirement Incentive Program (ERIP) was offered to Employees who met the Rule of 80 between January 2, 2020 and February 17, 2020.

4. Changes of Assumptions

Amounts reported for the fiscal year ending in 2020 and later reflect the following assumption changes based on an actuarial study conducted in November and December of 2019:

- The mortality table for healthy retirees and beneficiaries was changed from the sex-distinct RP-2000 Combined Healthy Mortality Table, set forward two years in age for males and one year for females to the sex-distinct Pri-2012 head-count weighted Healthy Retiree Mortality Table with rates multiplied by 1.25.
- The mortality table for disabled participants was changed from the sex-distinct RP-2000 Disabled Retiree Mortality Table to the sex-distinct Pri-2012 head-count weighted Disabled Retiree Mortality Table with rates multiplied by 1.25.
- The mortality table for active participants, terminated vested participants, and deferred beneficiaries was changed from the sex-distinct RP-2000 Combined Healthy Mortality Table, set forward two years in age for males and one year in age for females to the sex-distinct Pri-2012 head-count weighted Employee Mortality Table.
- Future mortality improvement is based on projecting generationally from 2012 using 60% of the sex-distinct Scale SSA2019. Previously future mortality improvements were not explicitly projected.
- The prior retirement assumption was based on the Plan's normal retirement eligibility. If normal retirement eligibility was only available on or after age 65, the prior assumption was 60% at ages 65 to 69 and 100% at age 70 and older. If normal retirement eligibility was available prior to age 65, the rates were 10% at ages 55 to 59, 20% at age 60, 25% at age 61, 35% at age 62, 40% at age 63, 45% at age 64, 50% at ages 65 to 69, and 100% at ages 70 and older as long as a participant was at least eligible for early retirement.

CITY OF WASHINGTON, GEORGIA
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
December 31, 2020

4. Changes of Assumptions, continued

- The new assumption relates to when a given participant is eligible for normal retirement (either regular normal retirement or alternative normal retirement). Retirement rates do not apply if a participant is not eligible for either early retirement or normal retirement. The retirement rates where normal retirement is available on or after age 65 are 5% at ages 55 to 59, 7% at ages 60 and 61, 20% at age 62, 10% at ages 63 and 64, 35% at age 65, 25% at ages 66 to 71, and 100% at ages 72 and older.
- Where normal retirement is available to a given participant at age 62, 63, or 64, the new retirement rates are 3% when first eligible for early retirement through age 60, 10% at ages 61 to 64, 35% at age 65, 25% at ages 66 to 71, and 100% at ages 72 and older. In addition, in the first year a participant is eligible for normal retirement, the rate is increased by 30%.
- Where normal retirement is available at age 60 or 61, the new retirement rates are 3% when first eligible for early retirement through age 59, 10% at ages 60 to 64, 35% at age 65, 25% at ages 66 to 71 and 100% at ages 72 and older. In addition, in the first year a participant is eligible for normal retirement, the rate is increased by 20%.
- Where normal retirement is available prior to age 60, the new retirement rates are 3% when first eligible for early retirement through the year prior to normal eligibility, 10% from normal retirement eligibility through age 59, 20% at age 60, 25% at age 61, 35% at age 62, 40% at age 63, 45% at age 64, 50% at age 65, 25% at ages 66 to 71 and 100% at ages 72 and older. In addition, in the first year a participant is eligible for normal retirement, the rate is increased by 10%.
- The turnover rates were changed from the greater of age-based rates and select rates for the first five years of service followed by age-based rates thereafter to service-based rates only.
- The disability rates were changed to 50% of the rates in the prior age-based table.
- The inflation assumption was decreased from 2.75% and 2.25%.
- The salary increase assumption was changed from a service-based salary scale starting at 8.25% for the first two years of service with an ultimate rate of 3.25% at ten years of service to a service-based scale starting at 8.50% for the first two years of service with an ultimate rate of 3.00% at fifteen years of service.
- The investment return assumption was decreased from 7.50% to 7.375%.
- The cost of living assumption was decreased from 2.75% to 2.00%.

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally or donor restricted to expenditure for specified purposes.

E-911 Fund – This fund is used to account for the fiscal activity relating to the imposition, collection, and uses of the E-911 emergency telephone number system fees.

Urban Redevelopment Fund – This fund is used to account for receipts and disbursements of Urban Redevelopment activity.

Callaway Plantation Operating Trust Fund – This fund is used to account for receipts and disbursements of monies collected from operating the Callaway Plantation Tourism Center.

Callaway Plantation Furnishings Trust Fund – This fund is used to account for receipts and disbursements of funds collected for maintaining the furnishings of the Callaway Plantation Tourism Center.

TSPLOST Discretionary Fund – This fund is used to account for TSPLOST funds received from the Georgia Financing Authority.

ENTERPRISE FUNDS

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The funds are self-supporting in nature where the costs, including depreciation, of providing goods or services to the general public on a continuing basis are financed or recovered primarily through user charges.

Water and Sewer Fund – This fund is used to account for the operation and maintenance of the City's water and sewer services.

Electric Fund – This fund is used to account for user fees and expenses for the electric services provided to the citizens of the City.

Solid Waste Fund – This fund is used to account for user fees and expenses for the sanitation services provided to the citizens of the City.

Internet Telecommunications Fund – This fund is used to account for user fees and expenses for the internet services available to the citizens of the City.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Honorable Mayor and
Members of the City Council
City of Washington, Georgia

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Washington, Georgia, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City of Washington, Georgia's basic financial statements and have issued our report thereon dated May 28, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Washington, Georgia's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Washington, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Washington, Georgia's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described below, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiency to be a material weakness:

2020-001

Condition: While performing audit procedures on cash receipts, we noted that the same person is posting payments to the ledger, preparing deposits, taking deposits to the bank, and performing the monthly bank reconciliations.

Criteria: Proper segregation of duties requires that the duties of preparing deposits, recording receipts in the ledger, and preparing monthly bank reconciliations should be performed by different employees.

Effect: Failure to maintain adequate segregation of duties subjects the City to greater risk of loss due to employee fraud.

Cause: The same employee has custody over cash receipts, records receipts in the ledger, and prepares the monthly bank reconciliations.

2020-001, continued

Recommendation: To ensure that proper internal controls are in place, the City should properly segregate duties.

Management Response: Management concurs with this finding. The City will segregate duties of the cash receipting process. This action was taken immediately upon receipt of the comment from our auditors.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies to be significant deficiencies:

2020-002

Condition: The auditors were unable to perform audit procedures on traffic citations. We noted that the City does not receive supporting documentation from the County for traffic citations issued by County officers within the City's limits.

Criteria: Adequate internal control requires adequate supporting documentation for citations issued by County officers.

Cause: The City does not maintain the supporting documentation for traffic citations issued by the County officers.

Effect: Failure to maintain adequate supporting documentation for traffic citations issued by County officers exposes the City to a greater risk of loss due to fraud.

Recommendation: In order to maintain adequate internal control over traffic citations, a log of traffic citations issued by County officers should be requested from the County monthly and reconciled to traffic citation cases tried in the City's Municipal Court.

Management Response: Management concurs with this finding. However, due to the fact that the issuing of traffic citations has been outsourced to the County, concurrence with this finding is difficult. Management intends to work with County personnel to establish sufficient procedures to reconcile traffic citations issued by the County's officers to the City's Municipal Court records.

2020-003

Condition: While performing audit procedures on the Municipal Court, we noted that cash bonds are not deposited until after disposition of the case.

Criteria: Proper internal controls require that cash bonds be deposited and transactions recorded in a timely manner.

Cause: Staff is not depositing cash bonds when they are received. They are being held for deposit until after disposition of the case.

Effect: Failure to deposit cash bonds in a timely manner exposes the City to a greater risk of loss due to fraud.

Recommendation: At a minimum, deposits should be made weekly.

Management Response: Management concurs with this finding. Management has advised the department head to implement the recommendation and to ensure that deposits are made timely. This action was taken immediately upon receipt of the comment from our auditors.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Washington, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

City of Washington, Georgia's Response to Findings

The City of Washington, Georgia's response to the findings identified in our audit is described previously. The City of Washington, Georgia's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Washington, Georgia's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
